Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Miller (US 3,680,305).

Miller discloses an engine of an internal combustion type comprising: a two-stroke engine having a cylinder 14 with a movable piston 16, that defines a combustion chamber, an intake port 26 in communication with environmental air and an exhaust port 28 wherein said intake port 26 and said exhaust port 28 are disposed so that during piston movement said intake port is open after said exhaust port has opened following combustion (col. 3, lines 42-45) in said combustion chamber and said intake port 26 is closed before said exhaust port 28 is closed by piston movement, and a retro-tube 42 attached to said exhaust port 28 wherein said retro-tube 42 is of approximately constant diameter and having a volume approximately equal to a swept volume of said piston movement in said cylinder.

2. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Jonsson (5,163,388).

Jonsson discloses an engine of an internal combustion type comprising: a two-stroke engine having a cylinder 10 with a movable piston 11, that defines a combustion

Art Unit: 3747

chamber, an intake port 19 in communication with environmental air and an exhaust port wherein said intake port 19 and said exhaust port are disposed so that during piston movement said intake port is open after said exhaust port has opened following combustion (col. 2, lines 25,26) in said combustion chamber and said intake port is closed before said exhaust port is closed by piston movement, and a retro-tube 17 attached to said exhaust port wherein said retro-tube is of approximately constant diameter and having a volume approximately equal to a swept volume of said piston movement in said cylinder.

Allowable Subject Matter

Claim 14 is allowed.

Claims 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 11-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
